PROFILE

Senior Unity developer with 10+ years in Unity and C#, and one of the first Unity Certified Developers worldwide. I build games, tools and real-time 3D / XR applications — from gameplay systems and shaders to modular architectures and cloud backends. Game Design and Computer Science degrees, 7× hackathon winner, now focused on game development.

CORE SKILLS

Unity: Gameplay & tools programming, URP / shaders & post-processing, ScriptableObjects, Addressables, profiling & optimization, multiplayer / netcode, AR Foundation, XR Interaction Toolkit

Languages: C#, C++, Python, TypeScript, GDScript

XR & Platforms: HoloLens 2, Meta Quest, HTC Vive · Android, iOS, PC

Backend: FastAPI, Azure Functions, PlayFab, REST, SocketIO

Tools: Git, CMake, Conan, Docker, Azure DevOps, Agile

EXPERIENCE

Senior Unity Developer

Jun 2022 – Jul 2023

Prologue AI · Montréal, QC

- Delivered CrimeTrip, an AR game, in Unity / C# — gameplay, AR foundation and PlayFab-backed live content.
- Architected modular event-driven systems and an extensible real-time collaboration framework.
- Authored custom shaders and post-processing; profiled and optimized to mobile GPU/CPU budgets.
- Mentored an intern and led Unity best-practice training sessions.

Senior Software Developer

Aug 2023 – Present

Zimmer Biomet · Montréal, QC

- Build applications for robotic-assisted surgery — knee, hip, shoulder and brain — in C++, Qt (5/6), Python, CMake and Conan.
- Deliver performance-critical, regulated-quality software; started on the HoloLens 2 / Unity mixed-reality team, then moved into surgical robotics.

Founder & Tech Lead

Sep 2021 – May 2022

Down Below — Indie Game Studio · Remote

- Led Unity3D development of a turn-based JRPG — combat, party and progression systems.

Freelance Unity Developer

Nov 2019 – Present

Freelance · Montréal / Remote

- Build Unity games, tools and AR/VR/MR apps for clients on Meta Quest, HoloLens and HTC Vive.

Senior Unity Developer

Feb 2016 – Apr 2017

Expansão Consultoria · São Paulo, BR

- Built VR/AR/MR and gamified Unity experiences for live events and corporate training.

Earlier experience: Founder @ Virtual Light (Unity VR for real estate) · IT Director @ RSTcom · Computer vision @ BairesDev · Developer @ TeleIDEA · Bilingual tech support @ Hewlett-Packard.

SELECTED GAMES & PROJECTS

CrimeTrip — Unity · AR · FastAPI · Azure · PlayFab

AR true-crime adventure game — investigate six cold cases inside augmented-reality crime scenes. prologuexr.com/crimetrip

Viva La Execution! — Unity · FastAPI · OpenAI · ElevenLabs

Comedic narrative game set in the French Revolution, with dynamic AI-driven dialogue. danyboyoyy.itch.io/viva-la-execution

Down Below — Unity3D · C# · Turn-based combat

Turn-based JRPG inspired by Darkest Dungeon — party builder, combat and loot systems. vimeo.com/697498158

Janos — Unity · Oculus Rift · Game Jam

VR puzzle game built comfort-first to prevent motion sickness — a two-headed robot escape room. Made at SPJam. youtube.com/watch?v=eFgFCMwm-5U

Missão Fundo do Mar — Unity · Computer Vision · Video-mapping

Interactive projection wall using AI image recognition to bring children's drawings to life (Monica's Park). vimeo.com/359048835

HACKATHONS

1st place — EIT Digital DeepHack (Olivetti) — Trento, Italy (2019)
1st place — HackaEngage — Campus Party (2019)
1st place — FIESP Hackathon — Digital Government (2019)
1st place — VISA Hackathon — Agitech (2017)
2nd place — IBM BlueHack (2017)
2nd place — Synvia Hackathon (2019)
2nd place — Uber Hack (2019)

EDUCATION

B.Sc. Computer Science · Faculdades Metropolitanas Unidas (FMU)

2020 - 2023

B.A. Game Design · Universidade Anhembi Morumbi

2012 - 2016

CERTIFICATIONS

- Unity Certified Developer (2016) — among the first in the world
- Python Programming for SysAdmins — 4Linux (2019)
- Python Fundamentals — 4Linux (2019)

LANGUAGES

Portuguese — Native **English** — Fluent (bilingual) **French** — Intermediate (improving)
