PROFILE

Game developer with 13+ years shipping games and interactive experiences across mobile, PC and XR. Unity & C# specialist, now also building in Godot, with a Game Design degree and a Computer Science degree. One of the world's first Unity Certified Developers and a 7× hackathon winner. I love turning concepts into shipped games — gameplay systems, tools, and the polish that makes them feel great.

CORE SKILLS

Engines & Languages: Unity3D, C#, Godot, GDScript, Python, TypeScript

Gameplay: Game design, turn-based / JRPG systems, multiplayer, tools, event-driven & ScriptableObject architecture, shaders & post-processing, profiling & optimization

XR: AR / VR / MR — HoloLens 2, Meta Quest, HTC Vive

Backend & Live Ops: FastAPI, Azure Functions, PlayFab, REST, SocketIO, MySQL, MongoDB

Practice: Game jams (Global Game Jam, SPJam), Git, Agile, CI/CD

EXPERIENCE

Senior Unity Developer

Jun 2022 – Jul 2023

Prologue AI · Montréal, QC

- Shipped CrimeTrip, an AR true-crime adventure game, from prototype to store release on Android and iOS (Unity, C#).
- Built a modular, event-driven gameplay architecture and an extensible real-time co-creation system reused across projects.
- Owned graphics work — custom shaders and post-processing — and performance optimization for mobile AR.
- Mentored an intern and ran internal tech talks and training for the studio and partner teams.

Founder & Tech Lead

Sep 2021 – May 2022

Down Below — Indie Game Studio · Remote

- Led design and production of Down Below, a turn-based JRPG inspired by Darkest Dungeon (Unity3D, C#).
- Built core gameplay systems: party builder, turn-based combat, encounters and loot.
- Drove the project across disciplines — design, art direction, marketing and development.

Freelance Game & Interactive Developer

Nov 2019 – Present

Freelance · Montréal / Remote

- Design and ship games and interactive experiences for studios and brands on contract.
- Recent: Viva La Execution!, a comedic narrative game with dynamic AI dialogue (Unity, FastAPI, OpenAI, ElevenLabs).

Senior Software Developer

Aug 2023 – Present

Zimmer Biomet · Montréal, QC

- Build real-time 3D / mixed-reality software on HoloLens 2 for surgical engineering (Unity, C#).
- Ship performance-critical interactive features to medical-grade quality and reliability standards.

Senior Unity Developer

Feb 2016 – Apr 2017

Expansão Consultoria · São Paulo, BR

- Built interactive and gamified experiences in Unity3D for live events and corporate training.

Earlier experience: *Computer-vision engineer @ BairesDev · IT Director @ RSTcom (12+ shipped apps) · Founder @ Virtual Light (VR startup) · Developer @ TeleIDEA · Bilingual tech support @ Hewlett-Packard.*

SELECTED GAMES & PROJECTS

CrimeTrip — Unity · AR · FastAPI · Azure · PlayFab

AR true-crime adventure game — investigate six cold cases inside augmented-reality crime scenes. prologuexr.com/crimetrip

Viva La Execution! — Unity · FastAPI · OpenAI · ElevenLabs

Comedic narrative game set in the French Revolution, with dynamic AI-driven dialogue. danyboyoyy.itch.io/viva-la-execution

Down Below — Unity3D · C# · Turn-based combat

Turn-based JRPG inspired by Darkest Dungeon — party builder, combat and loot systems. vimeo.com/697498158

Janos — Unity · Oculus Rift · Game Jam

VR puzzle game built comfort-first to prevent motion sickness — a two-headed robot escape room. Made at SPJam. youtube.com/watch?v=eFgFCMwm-5U

Missão Fundo do Mar — Unity · Computer Vision · Video-mapping

Interactive projection wall using AI image recognition to bring children's drawings to life (Monica's Park). vimeo.com/359048835

HACKATHONS

1st place — EIT Digital DeepHack (Olivetti) — Trento, Italy (2019)

1st place — HackaEngage — Campus Party (2019)

1st place — FIESP Hackathon — Digital Government (2019)

1st place — VISA Hackathon — Agitech (2017)

2nd place — IBM BlueHack (2017)

2nd place — Synvia Hackathon (2019)

2nd place — Uber Hack (2019)

EDUCATION

B.Sc. Computer Science · Faculdades Metropolitanas Unidas (FMU)

2020 – 2023

B.A. Game Design · Universidade Anhembi Morumbi

2012 – 2016

CERTIFICATIONS

- Unity Certified Developer (2016) — among the first in the world
- Python Programming for SysAdmins — 4Linux (2019)
- Python Fundamentals — 4Linux (2019)
